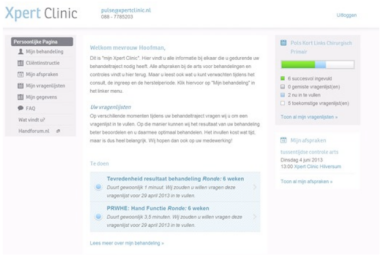
PULSE Redefining Hand and Wrist Care

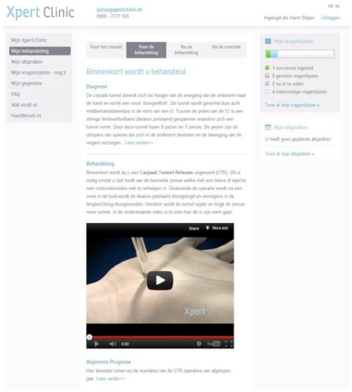


1. Patient appointment

2. Personal Web-Page (PPP) and intake questionnaires

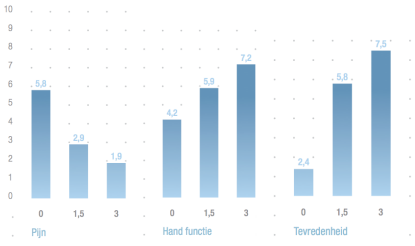
3. Consultation: exam, diagnosis, treatment decision making

4. Track Assignment and update PPP



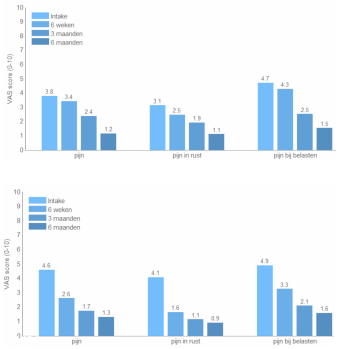
5. Extreme Value detection: **Real-time** pain monitoring

6. Recovery: Repeated measurements

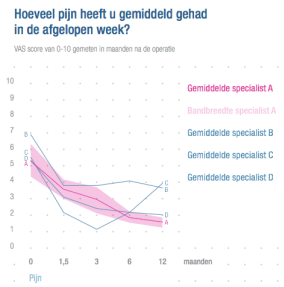


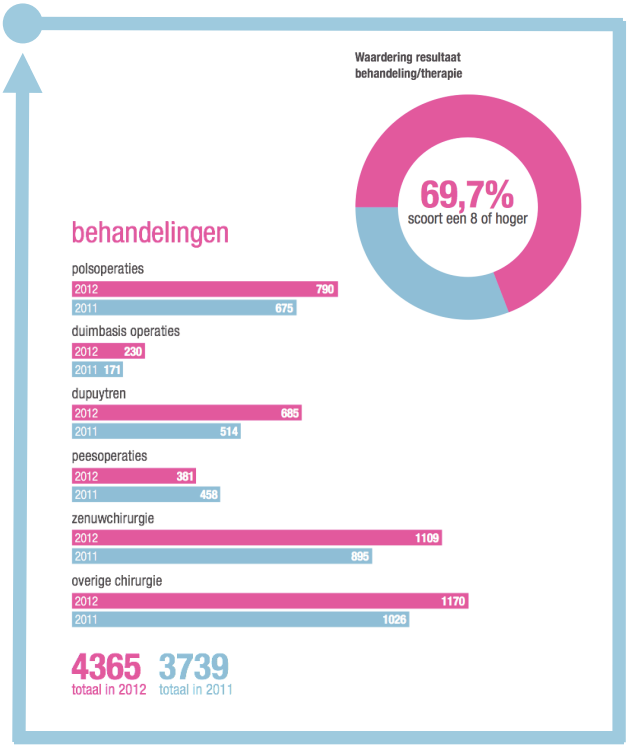
7. Personal rehabilitation instructions

8. Comparing treatment value



9. Surgeon performance dashboard





10. Healthcare Transparency: Patient centered, doctor driven
